Summary

Final-year Artificial Intelligence & Data Science undergraduate with hands-on experience in developing AI-powered applications, Machine Learning solutions, and data analytics platforms. Proficient in Python, FastAPI, Large Language Models (LLMs), and Retrieval-Augmented Generation (RAG). Strong interest in building intelligent, scalable AI solutions that solve real-world business challenges.

Technical Skills

Languages: Python, C, C++ , Java, SQL, JavaScript

Generative AI: Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), LangChain, Gemini API, Ollama, AI Agents, Prompt Engineering, Semantic Search, Embeddings, Vector Databases

Machine Learning & Data Science: Machine Learning, Deep Learning, Natural Language Processing (NLP), Computer Vision, Scikit-learn, TensorFlow, Keras, NumPy, Pandas, OpenCV

Data Analytics: Data Cleaning & Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, SQL-based Data Analysis, Matplotlib, Seaborn, Power BI

Backend & APIs: FastAPI, Flask, REST API Development

Databases: MongoDB, MySQL, SQLite

Tools & Technologies: Git, GitHub, Postman, Jupyter Notebook, VS Code, Google Colab, Streamlit, Selenium

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Education

B.E. Artificial Intelligence & Data Science

2023-2027

PES Modern College of Engineering, Pune | **SPPU** | **SGPA: 9.24 / 10**

Higher Secondary Certificate (HSC)

2022

Swami Vivekanand Jr. College of Science, Commerce & Arts | **87%**

Secondary School Certificate (SSC)

2020

Sanskar Sarjan Education Society | **93.6%**

Experience

AI Software Developer Intern | Accurate Industries, Pune

Mar 2026–Jun 2026

[GitHub](#)

- Developed and maintained an **industrial management platform** by building responsive user interfaces and scalable backend services using **FastAPI** and **MySQL**.
- Designed and implemented secure **RESTful APIs** for product management, customer inquiry processing, and administrative workflows, improving operational efficiency and data accessibility.
- Integrated an **LLM-powered chatbot** using **Retrieval-Augmented Generation (RAG)** to provide contextual product assistance, intelligent question answering, and automated customer support.
- Developed an interactive **analytics dashboard** to visualize customer inquiries, **product performance**, and operational insights, enabling data-driven decision-making through real-time reporting.
- Collaborated with stakeholders to gather business requirements, optimize application performance, troubleshoot production issues, and deliver deployment-ready software following software engineering best practices.

Projects

AI Job Intelligence & Career Analytics Platform

[GitHub](#)

Python, React.js, Node.js, MongoDB, Selenium, BeautifulSoup, LangChain, Gemini API, FAISS/ChromaDB, Chart.js

- Developed an **AI-powered job intelligence platform** that aggregates LinkedIn job listings through automated web scraping and enables intelligent job discovery using **Retrieval-Augmented Generation (RAG)**.
- Built an interactive **analytics dashboard** to visualize hiring trends, in-demand skills, salary insights, company-wise hiring, and location-based job opportunities.
- Implemented an **LLM-powered RAG chatbot** using **LangChain** and vector embeddings to perform semantic job search, summarize job descriptions, and answer natural-language queries.
- Developed **AI-driven resume-to-job matching** and **skill-gap analysis** modules to recommend relevant job opportunities and personalized learning pathways.

FoodieFinder – Hybrid Restaurant Recommendation System

Python, FastAPI, TensorFlow, ResNet18, Scikit-learn, Pandas

- Developed a hybrid **AI-powered restaurant recommendation system** using **TF-IDF**, cosine similarity, and rating-based ranking to deliver personalized recommendations.
- Integrated a **ResNet18-based deep learning model** for food image classification and cuisine recognition.
- Designed scalable **REST APIs** using **FastAPI** for personalized recommendations and image-based food analysis.
- Performed data preprocessing and feature engineering to improve recommendation quality and model performance.

AI Mock Interview Assistant

Python, Streamlit, LangChain, Ollama, Gemini API, LLMs

- Developed an **AI-powered mock interview platform** using **Large Language Models (LLMs)** to simulate technical interviews.
- Integrated **Gemini API** and **Ollama** to generate role-specific interview questions and enable conversational interview experiences.
- Implemented AI-driven response evaluation to provide **performance scoring**, personalized feedback, and improvement recommendations.
- Built an interactive **Streamlit** interface for conducting mock interviews and visualizing candidate performance analytics.

Dyslexia Detection using Deep Learning

[GitHub](#)

Python, TensorFlow, Keras, Flask, Scikit-learn, OpenCV

- Developed an **AI-powered dyslexia screening system** using supervised machine learning and handwriting image analysis.
- Implemented an ML pipeline with **data preprocessing, feature engineering, model training, and prediction** for dyslexia risk assessment.
- Integrated **handwriting image analysis** and cognitive assessment modules to evaluate reading, spelling, phonemic awareness, response time, and attention.
- Designed an interactive screening platform to assist teachers and parents with early dyslexia risk prediction.

Leadership & Certifications

- **Department Head, NSS:** Leading AI & DS departmental activities; previously served as **Department Co-Head**, organizing volunteer initiatives and social outreach programs.
- **Class Representative (CR):** Represented the AI & DS Department for **three consecutive years**, coordinating academic and departmental activities.
- **Code Club Member:** Active member of the AI & DS Department Code Club.
- **Smart India Hackathon (SIH):** College-nominated team for an **AI-powered Integrated Waste Monitoring & Marketplace Platform**.
- **Certifications:** Advanced AI & Green Skills (**Edunet Foundation, AICTE & Shell India**) |
- Professional Certificate in Data Analysis (**Udemy**).
